Powerful Influences Retard Investigation of Taylor Case

MOVIE WORLD PLACES OBSTACLES IN WAY OF TRAINED DETECTIVES

(By Associated Press) LOS ANGELES, Cal., Feb. 8.—Indications of powerful influences in the motion picture world endeavoring to direct the inquiry about the murder of William Desmond Taylor into certain lines and prevent its extension in other directions, are reported by officers on the case. The officers said that ever since their investigation got under way they had been meeting with unexpected obstacles, and that these were growing more evident day by day. Included in these obstacles were the disappearance of bits of evidence, including letters written to Taylor by Mary Miles Minter and Mabel Normand, which were believed to have been in his home when he was shot. Another disappearing clue was a handkerchief initialed "S" but which the police did not believe to be the property of Edward F. Sands, sought in connection with the case. The police said they believed the handkerchief belonged to a motion picture producer and that they wanted it so they would have something tangible with which to confront him as a basis for interrogation.

Former efforts to end the wide publicity given the case and those connected with it also were intensified yesterday, representatives of Miss Minter especially seeking to prevent the publication of the fact that her home was under guard. The disappearance from Taylor's home of a woman's pink silk nightgown, which was said by Henry Peavay, houseman, to have been kept there, was another item in the list of occurrences deterrent to the investigation, and vigorous efforts are being made to find out what became of it. The police announced today they proposed to limit news given out by them in the future.

(By Associated Press) WASHINGTON, D. C., Feb. 8.—The naval career of a deserter whose description and finger prints have been sent to Los Angeles in the Taylor case as possibly being Sands, has been a hectic one, including a dishonorable discharge for embezzlement, two fraudulent enlistments, and two desertions, all within a period of eight years. The names used by the deserter included Edward Fitzgerald Snyder, of Marion, Ohio, and Edward Fitzwilliam Strathmore, of Boston.

MIAMI POLICE DO NOT ARREST DAN COLLINS

(By Associated Press) MIAMI, Fla., Feb. 8.—The Miami city police have no knowledge of the purported arrest here yesterday of Dan Collins, ex-convict and New York tenderloin habitue, in connection with the murder of William D. Taylor of Hollywood, as reported in New York dispatches.

SOLDIER BONUS WILL BE RAISED BY TAXATION

(By Associated Press) WASHINGTON, D. C., Feb. 8.—Funds for the soldier bonus would be raised through taxation under the present plans of the majority members of the house ways and means committee, according to information given out after the members had discussed the whole bonus situation in executive session. It was stated it was not the purpose to depend upon any part of the interest or principal of foreign debts.

BANQUET WILL BE ATTENDED LARGE CROWD

Arrangements have been completed for the Lincoln Day banquet to be given at the Mizzap hotel grill on Sunday night at 7:30 o'clock, and judging from the sale of tickets, a record-breaking attendance will be present to pay honor to the memory of our martyred president. Unlike other banquets that have been given by political parties of the past in Tonopah, this event will be all feast and not so much wind.

The principal address will be delivered by Hugh Henry Brown, although talks will be made by Harry H. Atkinson and Judge Mark R. Ayer, the three speakers being given 20 minutes each. The toastmaster will be J. Grant Crumley and impromptu remarks will be made by a number of the best known Republicans of Nye county and the state.

Covers will be laid for 100 at the banquet and one of the most elaborate repasts that have ever been served in this town will result. To those who have not made arrangements for their tickets it would be well to see Mr. Crumley that arrangements may be made for the stipulated number who will be present. Both men and women are extended an invitation to the banquet.

HALF-MILLION WAR PRISONERS SENT TO HOMES

(By Associated Press) GENEVA, Feb. 8.—Prisoners of war to the number of 441,823 were sent to their homes between May 1, 1920, and December 31, 1921, thanks to the work of the joint commission of the league of nations and the International Red Cross.

The repatriated men were prisoners belonging to various European states interned in Russia and Russians interned in various European countries. A very small number of prisoners of war still remain in Russia, but as far as the joint commission can learn, although it has much difficulty in obtaining accurate information, they are men who have preferred for personal reasons not to join the convoys of repatriated prisoners.

WEST COAST WILL BE MADE BASE OF NAVY

(By Associated Press) WASHINGTON, D. C., Feb. 8.—Authority for the navy department to accept without cost to the government the sites offered it in San Pedro for a submarine base, at Alameda for a naval site, and at Sand Point, Washington, for a heavier-than-air aviation station, was requested of congress today by Secretary of the Navy Denby.

ORLANDO WILL FORM CABINET FOR EMMANUEL

(By Associated Press) LONDON, Feb. 8.—Former Premier Orlando of Italy has accepted the invitation of King Victor Emmanuel to form a new cabinet to succeed the Bonomi ministry, says an Exchange Telegraph dispatch from Rome.

CORK RAILWAY STRIKE CRISIS THOUGHT NEAR

(By Associated Press) YORK, Feb. 8.—The crisis in the Cork railway strike is expected to be reached tonight, the strikers having announced their intention of taking charge of the lines and running them themselves. South Munster is virtually isolated from the rest of the country and fairs and markets are hard hit.

WRIT MANDATE WILL BE ASKED FOR VETERANS

(By Associated Press) SACRAMENTO, Cal., Feb. 8.—Friendly suits will be brought shortly against State Controller Riley by the Veterans' Welfare board asking the supreme court for writs of mandamus to compel Riley to draw warrants for the welfare board. The suits will determine the constitutionality of three welfare measures enacted by the last legislature. The program was agreed upon in conference between Robert Smith, secretary of the welfare board; Chairman Daniels, of the state board of control, and Riley.

M'NAMARA TREATING FAIR TONNAGE ORE

There has been no material change during the past week in conditions at the property of the MacNamara Mining and Milling company. The mill is operating quite steadily and shipments are being received from outlying sections, while a number of leases at work in some of the Tonopah mines are favoring the plant with consignments of ore. During the past week a shipment of bullion was made, with an approximate value of \$10,000, but this did not represent the clean-up of the mill for a full 15-day period.

Three sets of leases are at work on the upper levels of the mine, and occasional shipments are made to the company mill. Satisfactory suits are reported, and the outlook is bright for an increased tonnage being extracted in the near future.

HISTORIC SHIP IS BURNED OFF CAPE MAY, N. J.

(By Associated Press) NEW YORK, Feb. 8.—The former transport Northern Pacific, which claimed the headlines in 1919 when she crashed onto a sandbar off Fire Island with 300 American soldiers, today was destroyed by fire to miles off Cape May, N. J. Messages reported that she was abandoned by a skeleton crew and the captain, who were taking her to drydock at Chesler, Pennsylvania.

(By Associated Press) SAN FRANCISCO, Cal., Feb. 8.—The steamer Northern Pacific had been purchased recently for \$1,000,000 by the Admiral line as an additional carrier between Seattle and Los Angeles, company officials announced here. She was to have been recommissioned from a transport to a passenger carrier at a cost of a half-million dollars.

DIVIDENDS TO COME? WATCH RECEIVERSHIP

Depositors of the defunct State Bank & Trust company should hold their breaths. They are threatened with a dividend probably so small that it could be placed in the corner of the eye. Judge Langan has again been heard from in the matter of the settlement of affairs of the wrecked institution. He has issued an order, following a conference with Deputy Attorney General Robert Richards, citing Frank L. Wildes, the receiver, to show cause within 10 days why the assets of the defunct bank should not be sold, or such order be made as to best cover the closing of the receivership.

It is evident that Attorney General Leonard B. Fowler forgot to take the appeal of which he made mention following the allowing of the \$90,000 fee to Receiver Wildes. He probably made an investigation of this claim of Wildes in about the same manner in which he investigated conditions in Tonopah, and then fell in line with the views of this man Langan and his Friday, Wildes. But the depositors of the defunct State Bank & Trust company are not sorely disappointed because Langan, Wildes and Fowler are following a course that was anticipated, although it is distasteful in the extreme.

The order issued by Langan follows: "The compensation of the receiver of the State Bank & Trust company having been fixed by the court upon the 21st day of April, 1921, and said receiver's accounts having been settled and approved up to said date; It is ordered that Frank Wildes, receiver of the State Bank & Trust company, an insolvent corporation, prepare and present to this court, within 10 days from date thereof, a petition asking for an order to show cause why all the assets, both real, personal and mixed, of said State Bank & Trust company should not be sold and said receivership wound up and the assets distributed to the creditors."

"Dated this February 7, 1922."

JOHN MURRAY HOME SAVED FROM FLAMES

The fire department responded to an alarm turned in at 1 o'clock this afternoon from the home of John Murray who resides near the water tank of the Tonopah & Goldfield railroad. Murray was endeavoring to thaw out a frozen water pipe when his torch came in contact with some inflammable lumber in the kitchen. The blaze was extinguished with the aid of chemicals. The damage was slight.

KILLING TAKES PLACE RESULT MILL STARTING

(By Associated Press) YORKVILLE, Ohio, Feb. 8.—At least one man was killed and a number wounded in a fight at the plant of the Wheeling Steel corporation. The plant resumed operations yesterday after being shut down since last July when the company and the Adornated Association of Iron, Steel and Tin Workers were unable to reach an agreement.

HAYS REFUSES COMMENT UPON MOVIE KILLING

(By Associated Press) MILWAUKEE, Wis., Feb. 8.—Will H. Hays, postmaster general, who will resign next month to become head of the National Association of Motion Picture Producers and Distributors, in a telegram to the Milwaukee Journal today, declined to comment on the Taylor murder case at Hollywood, California.

SHIRLEY FINDS HE SUFFERS A BROKEN NECK

John Shirley of Silver Peak has just returned from Reno, where he was examined by Dr. D. A. Turner for injuries received in Argentina, Esmeralda county, on June 16, 1921. Dr. Turner pronounced it a case of broken neck. Mr. Shirley then was examined by Dr. Kingsbury, who took five X-ray photographs of the head, neck and spine. The photographs plainly show a fracture of the fifth vertebra and damage to the fourth. The injury was caused by a bucket falling upon Mr. Shirley while he was working in a 28-foot shaft on the Francis group of claims in Argentina. The property belonged to W. A. Sanger and Frank A. Taylor. The supposed injuries at the time consisted of a fracture of the skull about five inches long, which resulted in hospital treatment for about a month.

Shortly after Mr. Shirley was released from the hospital, through representations as to his condition, the owners persuaded him to sign a release, by the terms of which he was to receive the sum of \$1200.

As soon as Mr. Shirley concluded that an alleged advantage had been taken of him, he offered to rescind the contract of release and return the \$1200 and the sum of \$1000 alleged to have been spent in expenses and for doctor bills. Upon their refusal to cancel the release Mr. Shirley brought suit in Esmeralda county to recover damages in the sum of \$25,000. On demand of the defendants the cause was removed to the United States district court at Carson City for trial, upon the grounds that W. A. Sanger was a resident of California, and Frank A. Taylor was a subject of Great Britain.

A Grant Miller and L. S. Thompson are looking after the interests of Mr. Shirley. The X-ray photographs were retained in Reno, to be used at the trial.

SENATOR DEMANDS MEX RECOGNITION

(By Associated Press) WASHINGTON, D. C., Feb. 8.—A resolution calling on the administration to recognize the Obregon government of Mexico was introduced today by Representative Ryan, Republican, of New York.

LEADING UNIONISTS TWO COUNTIES HAVE DROPPED FROM VIEW

(By Associated Press) BELFAST, Ireland, Feb. 8.—A large number of leading Unionists of Counties Fermanagh and Tyrone in the Ulster area have been kidnapped from their homes and taken to unknown destinations. Fifteen arrows have been made in connection with the kidnappings. The raiders are believed to have come from the counties of Cavan and Longford near the border. Forces known as "R. Specials" were mobilized today in Tyrone and Fermanagh and rushed to the scenes of the kidnappings. The Ulster government has announced its intention of taking drastic measures.

Among those kidnapped was Major Moutry, son of Anketell Moutry, head of the Tyrone Orangemen. The major resisted stiffly and finally was wounded. Former High Sheriff Carson resisted single-handed for an hour until wounded, and then was carried off in a motor car. The house of Major Moore, at Belleek, Fermanagh, was attacked but he escaped.

(By Associated Press) LONDON, Feb. 8.—The government today telegraphed the provisional government of Ireland, asking it to obtain the release of all prisoners taken across the border from Ulster. The government also telegraphed the commander of British troops in Ireland to give the provisional government all the necessary aid in defense of the northern Ireland boundary and not to hesitate to ask for reinforcements if necessary.

JAPAN ORDERS WORK STOPPED AT DOCKYARDS

(By Associated Press) TOKIO, Feb. 8.—The navy department has ordered the dockyards to stop construction work on eight battleships and battle cruisers now on the ways, which are to be scrapped in accordance with the Washington conference agreement.

DENBY SUSPENDS WORK ON VESSELS

WASHINGTON, D. C., Feb. 8.—All construction work on 14 capital ships of the navy now building has been suspended by Secretary Denby at the direction of President Harding.

POLAND SOON WILL BECOME SELF-RELIANT

(By Associated Press) WARSAW, Feb. 8.—Poland is gradually making her place in the world as a self-supporting nation, according to recent reports to allied experts in economics.

Within the last few months the new republic has made rapid strides toward straightening out many difficulties, in the opinion of the students of economics, one of the principal factors assisting in a balance in Poland's favor being liquidation of the Upper Silesian matter which has been hanging fire for nearly three years, the settlement giving the Poles their own coal and from 10,000,000 to 13,000,000 tons annually for export. The population of Poland is approximately 30,000,000.
